PRESS STATEMENT

RE: NATIONAL INTELLIGENCE BUREAU (NIB) DIRECTOR-GENERAL DENIES ALLEGATION OF CONTACTING OPERATION RECOVER ALL LOOT (ORAL) COMMITTEE

We act for Nana Attobrah Quaicoe, the Director-General of the National Intelligence Bureau.

Our client's attention has been drawn to widespread publications attributed to Mr. Martin Kpebu, a member of the Operation Recover All Loot (ORAL) Committee, alleging that our client, following engagements with the ORAL committee, has agreed to surrender a parcel of land belonging to the State, and that in consideration, the ORAL committee will not pursue further action against our client.

We are instructed to say that, the statements made by Mr Martin Kpebu on "Keypoints", a television show aired by TV3, and subsequently republished by several media outlets, are contrived, false and without any basis.

Our client has neither contacted nor engaged any member of the ORAL committee, particularly Hon. Samuel Okudzeto Ablakwa in relation to any government land, contrary to the claims by Mr Martin Kpebu, himself a member of the committee.

Further, we are instructed to say that our client is not in possession of any illegally-acquired government land as falsely peddled in the media.

We urge the public to disregard these false statements calculated to injure our client's reputation and call on the private legal practitioner, Martin Kpebu, to retract the utterly false and defamatory statements published about our client, failing which our client may resort to necessary legal action to vindicate his name and rights.

Thank you.
